Rose oil is one of the best all-purpose oils to have. It not only fights depression, grief, anger, and fear but looks after your heart and digestive system, well being the most wonderful remedy for female problems and one of the best oils to use on the skin. Bulgarian Rose Otto is known for its aphrodisiac, antidepressant, antiseptic, antispasmodic, and astringent properties. The rose oil creates a feeling of calm and well-being. It is also an antiviral, sedative, tonic, and appetite regulator. Rose oil is often used to treat skin problems, asthma, cough, depression, headache, and insomnia. The Organic Rose Oil which we supply is also considered very safe for topical use.

Our Rose Essential Oil is Certified Organic according to the strict USDA, National Organic Program Standards. Organic roses are grown without the use of pesticides, herbicides, or any other harmful additives.

The Rose oil is certified by the Bulgarian Government-appointed laboratory at the Research Institute for Roses, Aromatic, and Medicinal Plants - the ultimate rose Otto authority in the world. Quality guaranteed by the Government laboratory at the Bulgarian Research Institute for Roses, the only independent research and certification institution.

It can be used sparingly to great effect so it worth the investment!

More information:

Botanical Name: Rosa Damascena.

Common Name: Rose Damask.

Family Name: Rosaceae.

Parts used: Flowers blossoms, flower petals.

Aroma: rich, deep, sweet-floral.

Colour: Pale yellow.

Country of origin: Bulgaria.

Method of Extraction: Steam distillation.

Chemical Type: Rose oil is a complex blend of more than 300 different components. The major component in a rose blossom is phenyl-ethyl alcohol. However, phenyl-ethyl alcohol is highly soluble in water and is usually lost in the distillation process, unless collected as rose water. Major components are also: geraniol, citronellol(Alcohol), stearoptene nerol, and a small amount of phenylethyl alcohol. Many other components are present in very small amounts but have a substantial effect on the overall rose oil quality (eugenol, linalool, farnesol and e.g.).

Properties: antidepressant, antiphlogistic, antiseptic, antispasmodic, antispasmodic antiviral, aphrodisiac, astringent, bactericidal, choleric, cicatrisant, depurative, emmenagogue, hemostatic, hepatic, laxative, nervous system sedative, relaxing, stomachic, and a tonic for the heart, liver, stomach, and uterus.

Which systems/conditions benefit from its use?

Its rich molecular composition makes it one of the most beneficial essential oils for skincare.

Skin: for mature, dry, and sensitive skin and wrinkles; eczema. Anti-inflammatory, tonic, and astringent effect on broken capillaries and thread veins. As a blended massage rose oil can help for general skin toning; antifungal, antimicrobial effect.

Nervous: rose oil is a very effective antidepressant and also helps relieve symptoms of nervous tension and stress as well as insomnia; stimulates positive emotions, thus combating jealousy, sadness, grief; balancing, helps with headaches and migraines. Nervous system sedative. It drives away melancholy, promotes harmony, and is one of the strongest natural aphrodisiacs. Goes well with almost any other oil and helps reach an inner emotional balance. Add a few drops to your massage oil, warm bath, favorite lotion, and oil burner, and experience the rejuvenating power of the Rosa Damascena.

Heart: Rose oil is a gentle tonic for the heart. Its tonic action on the heart appears to help relieve cardiac congestion, improve sluggish circulation, and tone the capillaries. The key to Rose's psychological properties being its effect on the center of emotional being. Rose calms and supports the heart and restore a sense of well-being.

Muscular: Rose oil can be helpful and as a muscle relaxant; analgesic.

Respiration system: Rose oil assists in cases of asthma, coughs, and hay fever.

Reproductive system: Rose Otto is considered the premier oil for treating conditions of the reproductive system for both women and men. Regulates menstrual problems and uterine disorders, calms PMT (Post Menstrual Tension), increases semen production; relaxing thus helps impotence/frigidity.

Others: Disinfectant; rose oil can be helpful with baby blues.

The rose is a symbol of love and beauty and rose oil is one of the most valuable therapeutic perfumes. Rose Oil is the heart (middle) note essential oil and brings out the best in other notes. Being one of the most expensive and rare oils, the Rose oil is famous for its aphrodisiac and uplifting properties too.

Blends well with: Jasmine, [Sandalwood](#), Neroli, [Ylang-Ylang](#), [Chamomile](#), [Chamomile Roman](#), [Geranium](#), [Clove](#), and [Patchouli](#). Blending rose oil and rose absolute brings out a true Rosa Damascena bliss.

As a blended massage oil or diluted in the bath, rose oil can help with allergies, baby blues, asthma, hay fever, headaches, depression, migraine, nervous tension, depression, grief, stress, sadness and also to boost poor circulation, calming the heart, stimulating the liver and gall bladder and for general skin toning.

At 25 C the Rose oil is a viscous liquid. Upon cooling, it becomes a crystallized mass, which can be liquefied by warming. Simply warm the bottle by rolling it in your hands until it is again liquid! This does not alter the quality of the oil, this guaranteed the original

of the products, the product is pure and not diluted!

Applications

In Aromatherapy applications, the Otto is more potent than the Absolute, and an even smaller amount is needed.

Goes well with almost any other oil and helps reach an inner emotional balance. Add a few drops to your massage oil, warm bath, favorite lotion, and oil burner, and experience the rejuvenating power of the Rosa Damascena.

This is the oil of love, that has many psychological and physiological applications.

Cosmetics

The rich molecular composition of rose oil makes it one of the most beneficial essential oils for skin and personal care products. Our Bulgarian Rose Oil has strong healing, restoring, and anti-aging properties in very concentrated form; adds vitality and balance. Add it to any moisturizer (cream and lotion) to rejuvenate skin and improve texture.

For making a quick rose perfume, mix a few drops of rose oil with jojoba oil.

Aromatic lamp: aphrodisiac, tonic, sedative - 5-6 drops of rose oil.

Aroma Pendant: deodorizing, headache, migraine, normalizing blood pressure – 1-2 drops of rose oil.

Bath: aphrodisiac, restorative, rejuvenating, anti-depression, insomnia - for a full body bath up to 6 drops and 1-2 drops for a footbath.

Sauna: antiseptic, antibacterial, in cold - 10 drops of rose oil in 500 ml water.

Massage: antidepressant, to enhance sexual desire, grinding, and regenerates skin: 25 ml carrier oil/almond, avocado, apricot, grape seed / 8 drops of rose oil.

Face creams: for ageless skin with wrinkles, scars, stretch marks, dry and sensitive skin - as a general rule for creams, shampoos, gels, etc use 1 or 2 drops per 5ml.

Aroma Spray: for deodorizing, toning, soothing – 15-20 drops of rose oil in 250ml. water, shake the bottle, and spray the room.
