Description

DAY FACE CREAM WITH HYALURONIC ACID, ROSE OIL AND SNAIL EXTRACT

An intensive day cream that promotes cell renewal and rejuvenation and strengthens connective tissue thanks to the unique natural complex of natural rose oil produced in Bulgaria, Rose Absolute and 100% snail extract.

Advantages:

? With hyaluronic acid

?SPF50

Intensive, enriched formula specially selected to restore and hydrate the skin and protect it from harmful UVA/UVB rays.

The complex of ingredients is uniquely selected to make the skin richer and more elastic, to smooth fine lines and wrinkles, to make it look young, fresh and vibrant.

Hyaluronic acid, such as Sodium Hyaluronate, can be used by people of any age with different skin types.

Hyaluronic acid is a polysaccharide that occurs naturally in the human body and aids in the production of collagen and elastin. This leads to improved natural elasticity of the skin, for a healthier appearance and texture. Young skin is abundant in hyaluronic acid, but the amount begins to be lost as we age, resulting in skin ageing.

Hyaluronic acid such as sodium hyaluronate in cosmetics leads to penetration and hydration of the skin in depth. Hyaluronic acid has the ability to retain water by building a natural barrier. In doing so, it prevents moisture from the inner layers of the skin from evaporating to the surface, the so-called Trans-Epidermal Water Loss (TEWL), while at the same time absorbing moisture from the external environment and supplying the skin with as much as and where it is needed. Smooths fine lines and wrinkles, resulting in younger-looking, fresh and hydrated skin.

Rose oil, a natural product extracted from the fresh flowers of the Rosa damascena Mill. Its composition includes over 300 micro- and macro-components that determine its biologically active action. For centuries, rose has been associated with feminine beauty and skin care. Its use in cosmetics contributes to keeping the skin hydrated and firm. It helps cell membrane renewal and regeneration. Rose oil has anti-inflammatory, soothing and rejuvenating effects, making it very suitable for all skin types. Rose oil has proven antibacterial properties. Helps remove redness and inflammation, protects against external influences. Rose oil is a proven hypoallergen.

Snail extract, extracted from the mucus of snails without harming them, has strong protective and restorative properties for any skin and for any age.

The magical qualities of snail extract are due to the glycolic acid, allantoin, collagen, elastin and vitamins it contains. Its application does not irritate and is suitable even for people with very sensitive skin. The snail extract makes the skin much more supple and smooth and it feels toned and revitalized.

Allantoin, as one of the main ingredients of the extract, helps to moisturize and regenerate the skin surface. It soothes the skin in case of sunburn, reduces irritation and inflammation. Allantoin stimulates the formation of collagen, this important ingredient for the skin, and hydrates deeply. It is indispensable in anti-aging skin cosmetics. Helps reduce the appearance of fine lines and wrinkles.

Rose water is of the highest quality and is an indispensable part of our cosmetics. The results of its use are healthy, toned and hydrated skin, preserving its natural moisture balance. It has antibacterial, anti-inflammatory and antioxidant effects. The presence of Rose oil in the water contributes to its anti-age effect.

The benefits of **Vitamin E** make it indispensable in daily skin care due to its proven properties. It is a strong antioxidant and helps to protect the skin from environmental influences. Prevents the breakdown of collagen, which keeps skin smooth and supple. Reduces damage caused by UV rays. Combined with hyaluronic acid, vitamin E penetrates into the individual layers of the skin, where it regenerates damage to individual structures and hydrates the skin from within. This helps to slow down the aging process. Smooths wrinkles and restores skin elasticity and firmness.

Calendula extract contains carotenoids, pigments and saponins that accelerate regenerative processes and stimulate collagen production. Provides powerful antioxidant protection, strengthens the skin, reduces the appearance of wrinkles and smooths the complexion. Calendula extract has anti-inflammatory, moisturizing and soothing properties.

Sunflower oil is rich in essential fatty acids and vitamins E, A and D. When used, it penetrates deeply and provides intense hydration. Protects the skin from external environmental factors and facilitates its recovery. Sunflower oil is light, not greasy, easily absorbed by the skin without clogging the pores.

Carefully selected SPF filters for high sun protection, with priority natural origin and the latest generation of sun protection technology, are used in the most gentle cosmetics, including for children. Their use significantly reduces the degree of photo-aging of the skin and the appearance of dark spots and freckles. Reduces pigmentation and achieves a smooth, even and natural complexion without burning. Leaves no white marks.

COMPOSITION: AQVA, HELIX ASPERSA EXTRACT, GLYCERYL STEARATE SE, ETHYLHEXYL STEARATE, GLYCERIN, OCTYL DODECANOL, PRUNUS AMYGDALUS DULCIS(SWEET ALMOND)OIL, CAPRIC TRIDLYCERIDE, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL, CALENDULA OFFICINALIS FLOWER EXTRACT, ISOPROPYL PALMITATE, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, POLYACRYLAMIDE, C 13-14 ISOPARAFFIN, LAURETH-7, ROSA DAMASCENA FLOWER OIL, ROSA DAMASCENA FLOWER ABSOLUTE, TOCOPHERYL ACETATE, RETINYL PALMITATE, BHT, CITRONELLOL, GERANIOL, LINALLOL, EUGENOL.
