Evening Primrose Oil is derived from the seeds of the Evening Primrose. It is a golden yellow color and is rich in vitamins and minerals. Evening Primrose Oil helps with arthritis, asthma, breast tenderness, depression, high blood pressure, and overweight. Suitable for all skin types, it's very high GLA content helps maintain healthy skin. Evening Primrose Oil is an excellent moisturizer.

100% USDA Certified Organic carrier oil.

More details

Botanical Name: Oenothera Biennis.

Plant Family: Onagraceae.

Source: Flower seeds.

Aroma: Light and Sweet.

Colour: Golden Yellow.

Country of origin: USA, UK, Northern Asia.

Properties: Contains essential fatty acids GLA (gamma-linolenic acid)&Linilenic acid which is both essential for the body but not made by it so must be provided by the diet.GLA (gamma-linolenic acid) reduces symptoms of PMT. It also contains oleic and palmitic acids.

Advantages: useful for treating dry skin conditions including eczema and dandruff; useful for PMT(reduce the symptoms of pre-menstrual tension).

Disadvantages: Can become rancid quickly if not stored properly; expensive.

Evening Primrose Oil is expensive and is usually blended in a small (often 10%) dilution with other carrier oils. It is fine textured oil. Keep away from light and heat.

Never tested on animals.

Important Note: Any reference to a disease or condition name does not indicate treatment for this disease or condition. Carrier oils are without therapeutic indications. The information provided is for educational purposes only.
