Description

Juniper water is an all-natural product obtained by steam distillation of Juniperus Communis Fruit branches and berries. It has a fresh sweetish aroma, with delicate woody resinous notes.

Natural juniper water 100 ml.

Since ancient times juniper has been revered in folk medicine for its healing properties.

Juniper water has an anti-allergic and antiseptic effect. It tones and cleanses.

Juniper water is extremely suitable for oily and acne-prone skin, as it regulates sebum production, cleanses and tightens enlarged pores.

Its use triggers the lymphatic system, which promotes the cessation of fluid retention. Thus, it works well for cellulite.

It has anti-rheumatic and blood-respiratory action.

It is used as a natural antiperspirant, to heal wounds and as a tonic.

Usage:

It is used as a base or an ingredient in homemade recipes for specific problems - acne, cellulite, etc.

Use as a full body and facial toner in combination with other floral waters.

Suitable for inhalation for shortness of breath and bronchitis.

For external use in joint problems (rheumatism, gout with edema)

Can also be used as a room freshener by spraying several times on the handy spray pump

Ingredients:100% natural juniper water

Storage: in a dark and cool place, away from direct sunlight and heat sources. To keep away from children.
