100 % Certified Organic Carrier oil

High-quality cold-pressed Organic Rosehip (Rose Hip) oil. Rosehip seed oil is a cold pressed seed oil, extracted from the seeds of a rose bush (Rosa Canina). It is unique among vegetable oils in containing retinol (Vitamin A) and is also high in vitamin C. Rosehip seed oil is high in the essential fatty acids - linoleic acid or omega-6, and linolenic acid or omega-3. It is commonly used in skincare products. It is used for a variety of skin conditions, including dermatitis, acne, and eczema, for mature and sunburnt skin as well as brittle nails and wrinkles. Rosehip oil is also frequently used to heal scarring and diminish photo-aging.

A deeply nourishing oil that restores, protects and beautify your skin. Reduces the visibility of scars, stretch marks, fine lines and uneven skin tone. Those unrefined organic rosehip oil, obtained from the seeds of the Rosa Canina rosehip fruit by cold pressing, contains nourishing linolenic and linoleic acids and complexion-enhancing antioxidants. It is absorbed by the skin extremely well, moisturizes it and reduces the appearance of wrinkles and other skin damage that occurs as a result of adverse factors of the external environment.

The powerful active ingredients in rosehip oil determine its use for dry, loose or demanding skin. In addition, it affects extremely well scars from wounds, burns, acne, as well as stretch marks and wrinkles.

More information:

Botanical name: Rosa Canina.

Common name: Muscat Rose, Rosa Mesquite.

Plant Family: Rosaceae.

Source: Fruits.

Aroma: mild and earthy.

Colour: pale yellow.

Country of origin: South America.

Method of extraction: Cold Pressed/Unrefined.

Properties: rich in essential fatty acids – Oleic, Palmitic, Linoleic, and GLA; rich in vitamins A, C, D, E, and antioxidant flavonoids. Rosehip oil also contains polyunsaturated fatty acids (vitamin F) also known as essential fatty acids (EFA), and when they are absorbed through the skin, they convert to prostaglandins (PGE), which are involved in cellular membrane and tissue regeneration.

Skincare: It is an excellent oil in treating many skin conditions: restores firmness to the skin, tissue regenerating for mature skin, UV damage from overexposure to the sun, aging, acne, eczema, brittle nails. Rosehip oil has some great rejuvenating properties and is helpful with fighting sun damage to the skin. It is high in GLA, helping to reduce the signs of aging, especially the fine lines around the eyes (crows' feet) and lines around the mouth and also assisting with attenuating both accidental and surgical scars.

A rich, amber-colored organic oil from the ripened fruit of the famed Rosehip, also known as Rosa Mosquita. This unique oil is extremely high in essential fatty acids and has carried much respect amongst professional journals and organizations as being a great agent in the fight against dry, weathered, and dehydrated skin. It works wonders on scars and is the predominant oil used for treating wrinkles and premature aging. Can be used in all fine skincare race.

Advantages: Rosehip seed oil absorbs into the skin really easily and doesn't leave it feeling greasy at all. This oil has a moisturizing, soothing and softening effect. Rosehip Seed Oil (Rosa Affinis Rubiginosa) contains Vitamin A, which helps to delay the effects of skin aging, assists with cell regeneration, and promotes collagen and elastin levels to increase. This results in firmer, smoother, and more youthful skin with greater elasticity. The rosehip seed oil also contains a high amount of essential fatty acids and Vitamin E, which further promotes healthy skin. In particular, it is rich in linoleic and linolenic acids, which are important skin nutrients, reduce pigmentation of the skin. It contains trans-retinoic acid, which is responsible for skin rejuvenation and quickens healing (anti-aging). It repairs skin subjected to excessive sunlight and resultant photoaging.

Rosehip oil is very good for dry, scaly fissured skin, dull skin. This oil is good for cosmetics and for tissue regeneration. Also, it is good for eczema, psoriasis, PMS, and Menopause.

When used regularly it has been shown to reduce fine lines and wrinkles.

It helps the skin heal and regenerate, and is helpful in healing burns, scars and stretch marks.

Rosehip oil does not need to be diluted before use on the skin as most essential oils need to be, and has some very positive effects on the health of the skin.

Disadvantages: None. It is expensive and is usually blended in a small (often 10%) dilution with other carrier oils.

Application on the face: gently massage 2-3 drops of the oil on the face, neck and décolleté, preferably on damp skin.

Suitable as an ingredient in nourishing hair masks.

Suitable as a main or complementary massage oil.

Usage:

For external use only.

Do not use if allergic to any of the ingredients

Before use, perform a sensitivity test.

In case of rash or redness - stop using the product.

Storage: store in a cool, dry place. Keep out of direct sunlight and away from heat sources. If temperatures are very high during the summer

months, it can be stored in the refrigerator. Note that it is necessary to remove from the refrigerator 12 hours before use to allow the oil to adapt to room temperature.

Note: Any reference to a disease or condition name does not indicate treatment for this disease or condition. Carrier oils are without therapeutic indications. The information provided is for educational purposes only.
