## Body Care: Rose Massage oil

---

### Description

**SOOTHING BODY AND BATH MASSAGE OIL with natural rose oil produced in Bulgaria.**

**100% natural product, without artificial flavors and preservatives.**

The scented body and bath oil (Massage Oil) contains pure natural oils of sweet almond, jojoba, sesame, wheat germ, as well as essential oils of Rosa Damascena, geranium, lemon.

The rejuvenating aromatic body oil "Rose" makes the skin soft and supple, and the rose and geranium oils it contains balance the nervous system, relieve depression and feelings of anxiety.

Rose and geranium oil regulate the skin's sebum, making it suitable for oily skin. They act antiseptically. Rose oil slows skin aging, making it suitable for more mature skin.

Lemon balm oil gives a feeling of freshness and lifts the spirit.

**Application:** the rejuvenating fragrance oil "Rose" can be applied directly to the skin during bathing, letting it sit for about 3-5 minutes to allow the essential oils to penetrate the skin and exert their effect, and then wash the body with a warm shower. 10 ml. (about 1 tablespoon) of the oil are placed in the bath.

For drier and more sensitive skin, the oil could be applied directly to the whole body with light massage movements immediately after showering, while the pores are still dilated to allow the essential oils to penetrate the skin.

Use after bathing instead of moisturizing lotion. It has a softening and moisturizing effect. Does not grease the skin.

The rejuvenating aromatic body oil "Rose" can be used for an oil cleansing and nourishing face bath.
